## Papercut Factory

Eco-Friendly packaging experts.

We started our journey in 2015 with an aim of being the best packaging company in the country. During the course of our journey, we realized our responsibilities towards the environment and made our mission to be a reliable eco-friendly packaging company.

Our production line of Qatar outlines and fabricates eco-friendly packaging and products without trading off on the quality. We offer an unrivaled range of diverse eco-friendly and compostable, biodegradable, recyclable products source from ethical and sustainable sources. We offer a full custom branding and bespoke packaging service thereby providing customers with tailored solutions that meet both their brand and environmental ambitions and objectives.

Everything made at our manufacturing plant is tweaked and made with the simple expectation of conservation of the environment. We have made environmental consciousness a noteworthy focal point of our business and are prevailing on both the sales and buyers front.

# Our Head Quarters

Employee benefits have been always the focal point of management and to enhance it further, the company has always strived to offer the best facilities to its employees including better infrastructure and working conditions. Our well-designed office space does more than just a pleasant sight.

Our office layout creates opportunities for us, our employees, and our business. Our new office has added all the elements into the workplace that allow a nature connection and helps our staff to mentally recover from day-to-day stresses and improve our well-being.

## Founders Message

### A Vegan Alchemist

Ghanim Al-Sulaiti is a young Qatari entrepreneur passionate about creating a positive impact on society by promoting a plant-based lifestyle.

He holds a BSc in Civil Engineering from Drexel University, USA and by trade, is a qualified Engineer where he currently holds the position of Site Engineer for QDVC working on Red Line South Doha Metro Project.

In his spare time, he is a serial entrepreneur, founding his first business—Evergreen Organics—in 2016, and now has over 10 projects currently live or under development. All of these projects share the same vision and values as its founder—to be vegan, sustainable, and promote a healthier lifestyle. Equipped with a comprehensive understanding of the creative and operational procedures needed to produce excellent brands.

Ghanim has a personal interest in developing dialogue about healthy living, veganism, and sustainability. With a mind wired for logic and strategy and a desire motivated by the passion for creativity and business savviness. Ghanim is on a mission to help and transform people's mindsets to live a lifestyle that helps their planet, their health, and their future.

# Our Clientele

## Mission & Vision

We are committed to offering packaging services that are easy to recycle, safe for individuals and the environment, and are made out of recycled materials. We adhere to using materials and manufacturing practices with minimal impact on energy consumption and natural resources.

The prevalence of conscious businesses which strive to serve, produce and thrive sustainably, as well as develop deep, meaningful relationships based on these strong values.

# Corporate Social Responsibilities

To spread the message of environmental protection and sustainable development we have taken many initiatives as a part of our corporate social responsibility. We have done beach cleaning a few places to create greater community awareness about the need to protect and preserve the natural environment and keep the marine habitat safe and trash-free, all our staff members and senior management actively picked up litter and trash collected along the shoreline.

Beach Cleanup 2020

# 5th Year Anniversary

## Tree Plantation 2021

We celebrated our 5th anniversary in a more meaningful way by planting trees and contributing to the environment.

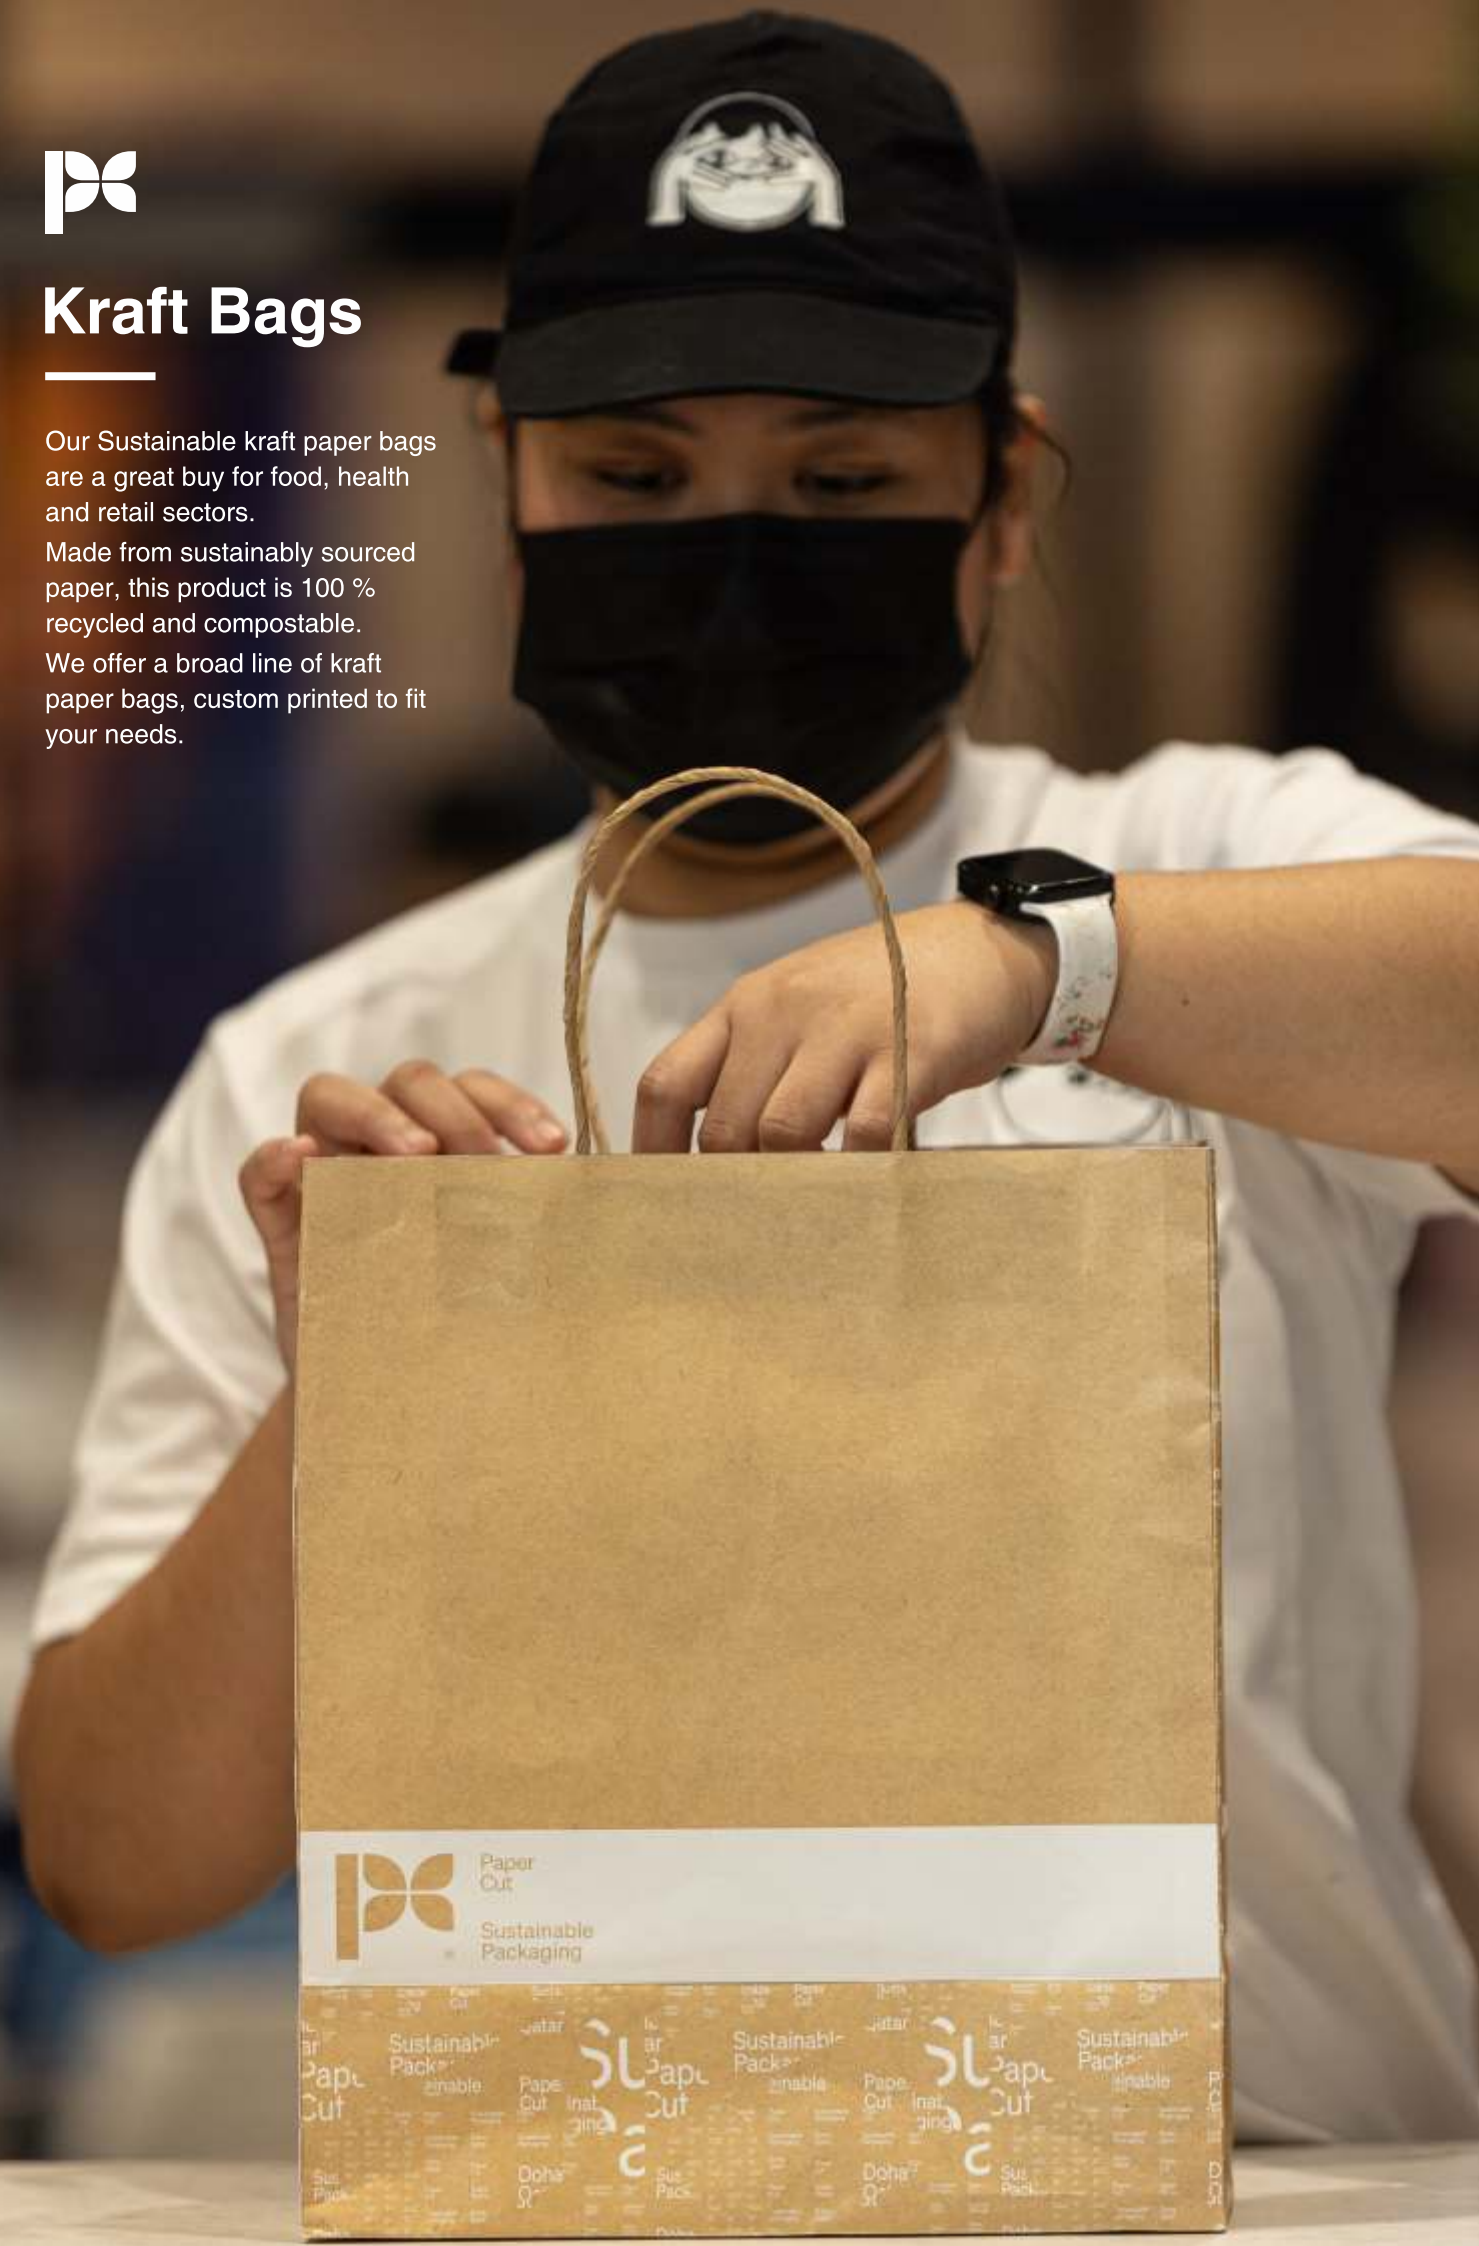

We also actively participate in and support green initiatives, a plantation drive was carried out in 2021. This plantation will not only compensate for the impact of construction works but will support the environment in the future and help in slope stabilization and soil erosion.

# Kraft Bags

Our Sustainable kraft paper bags are a great buy for food, health and retail sectors. Made from sustainably sourced paper, this product is 100 % recycled and compostable. We offer a broad line of kraft paper bags, custom printed to fit your needs.

# V Pouch Bags

Our V Pouch Bags are sourced from sustainable Resources and is FSC certified. It is printed with water or vegetable based ink and is 100 % recyclable and compostable.

# SOS Bags

Papercut offers high quality SOS Paper Bags made from FSC Certified Paper. Our bags are durable and typically used in grocery stores and in bakeries. The SOS paper bags offer a perfect eco space alternative to plastic carrier bags. They can be printed with water based or vegetable-based inks.

## Grease Proof Paper

Our branded grease proof papers are fully bio degradable and recyclable. The paper is specially treated to prevent penetration of fat and moisture into the paper structure, thereby preserving the packaged food, the packaging and the printing in perfect condition. Ideal for tray liners, chip basket liners and food wrappers, the grease proof paper helps to maintain the flavor and aroma while enhancing the appearance of your food.

## Burger Pouch

Burger pouches are available in naturally grease-resistant paper manufactured from sustainable sources. They're ideal for wrapping and serving BBQ sandwiches, hamburgers, cheeseburgers, chicken sandwiches, grilled cheese, and more.

## Paper Cups

Our water-based coating paper cups are made from sustainable, recyclable, and biodegradable materials. Lined with plant-based resin (NOT petroleum or plastic based). Recyclable paper cups are the eco-friendly solution to supplying your customers with your most popular coffee drinks or juice. Our double-wall cups have a high-quality feel, they are sturdy and comfortable to hold and ideal for serving coffee, tea, hot chocolate or any other hot drink.

## Sugarcane lids

Our Lids are Made from sugarcane bagasse, the waste fibers of the sugarcane plant - certified 100% compostable, 100% biodegradable, from nature and back to nature. The durable construction of these lids is moisture proof and leakproof to avoid spills. These lids are, Non odor, nontoxic, smooth and soft, with no sharp edges. Suitable for microwave, oven, freezer and freezing preservation.

## Cup Sleeve

Made from 100 % recycled kraft brown paper - 3 ply sheets.

These paper clutches can be used for both hot and cold cups and provide a comfortable, sturdy, and non-slip feel, even when you move. These Paper Cup Sleeves are designed to fit Cups as an extra layer to provide insulation against hot or cold liquids contained within the cup.

## CPLA Lids

Our compostable lids are made from Nature Works Ingeo™, which is derived from plants grown in the USA. Even though they are as light and strong as plastic, they fully break down when composted. These disposable hot cup lids are great for warm beverages like coffee, tea, and hot cocoa. Our coffee cup lids are compostable, eco-friendly, and suitable for liquids up to 180°F. Composts in 2 to 4 months in a commercial composting facility.

## Paper Lids

The Paper lids are made from sustainably sourced paper with compostable PLA lining. Our paper lids are perfect for hot or cold beverages, are freezer safe and certified compostable in 2 to 4 months in a commercial composting facility.

These lids are 100% biodegradable, compostable, sustainable, waterproof, heat resistant and spill proof.

## Pouches

Made from 100% food grade paper, making it which makes it harmless to pack food. They can be taken care of and can be reused continuously. Paper pouches are both recyclable and biodegradable. They are made from a renewable natural resource, can be reused repeatedly, and can be shipped.

## Tea Flasks

Made from 100 % recycled carton ply, printed with vegetable or water-based ink. The disposable flask is used to pack and deliver hot & cold beverages such as Soups and Coffee. It includes an aluminum pouch which keep beverages hot from 60 to 90 mins.

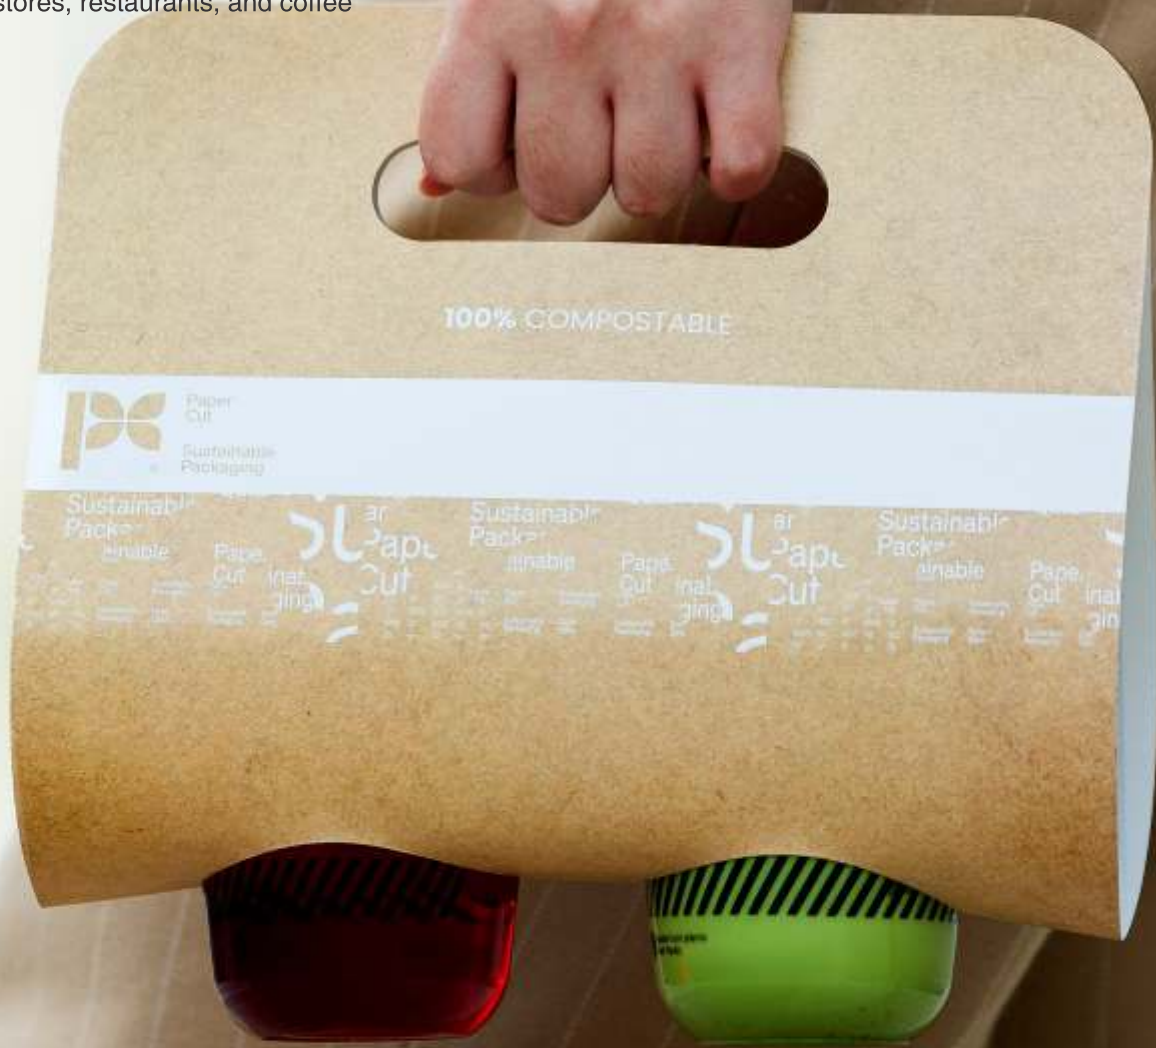

# Cup Carriers

Eco – friendly kraft paper cup carrier is made from FSC certified board and carries more drinks with ease. The unique foldable design is for efficient, space-saving storage. It also helps to distribute the cups' weight, making it easy to carry.

These carriers are perfect for deliveries or when you need to store multiple drinks in one nifty package. They are designed for easy transport on the go making them a fantastic option for cafes, ice cream stores, restaurants, and coffee shops.

## 2 Cups Holder

This adorable beverage holder is made from Sustainably sourced board. It is a multi-compartmental drink carrier that allows you to place two 12/16 oz cups in its holders. Perfect for holding your morning coffee, smoothie, or juices.

## 4 Cups Holder

Made from sustainable paperboard, these carriers are strong and durable and don't tear easily.

It securely holds up to 4 cups of coffee, tea, or smoothies of different sizes.

Featuring a cut-out handle, these cup holders provide a comfortable hold for your on-the-go customers.

The side flaps on the end of the compartments keeps the drink secure and prevents your drink from spill or fall.

# Ice Cream Cups

Our paper ice-cream cups are the perfect solution for serving your ice-cream, gelato, and yoghurt to your eco-conscious customers. They are made from high quality food-grade paper and sourced from sustainably managed forests. The inner lining completely compostable and biodegradable – a real change from the norm, no more plastic coatings. Lined with water-based coating (no plastic or toxic chemicals)

# Ice Cream Cups

Our compostable ice-cream cups can be customized to your heart's desire. Want to add a business logo or full brand? No problem. Our design team will guide you through the entire process to make your ideas come to life.

# Ice Cream Tubs

These Tubs are made from sustainable forest paperboard with a natural PLA cornstarch lining - certified 100% compostable. These containers are certified food safe and can be refrigerated. Ideal for ice-cream, confectionary, dessert, and frozen yoghurt. The paper lid with vented paper construction helps to keep the lid securely in place.

# Salad Containers

---

Sustainability and making green foodservice products are the aspirations of Papercut. Our salad containers are an example of this main agenda as we provide a great selection of biodegradable, recyclable, compostable, and sustainable products.

Our salad containers are durable and can withstand both cold and hot temperatures. They are designed to fit any food business type, whether it's for dine-in, takeout, or for delivery.

They are made with food-grade material and are resistant to temperatures between -18 °C (0 °F) and 70 °C (160 °F).

# Salad Containers

---

Made from bio coated paper board, these salad bowls are the perfect solution for not only transporting mixed / rice salads or cold preparations, but also for reheating food.

# Soup Tubs

---

These are eco-friendly, compostable, biodegradable, non-toxic and bpa free alternative to plastic containers with an impermeable lining created from plant-based corn starches that creates a leak-proof and heat-resistant barrier, and can withstand microwave ad temperatures up to 200 degrees Fahrenheit. It is used to serve anything from signature soups and stews to your most popular hot sides and steamed veggies. The classic, round shape ensures that it's easy to hold and carry while on the go.

# Take Away Meal Boxes

All our Compostable Take Away boxes are made from sustainably sourced, eco-friendly, biodegradable food grade board. They are great for packaging to-go orders of hot or cold food. Our water-based coating for boxes is made from sustainable, recyclable, and biodegradable materials preventing oil or grease from soaking through.

# Sandwich Box

This sandwich packaging is made of white recyclable and biodegradable paperboard. The clear window is made of PLA which is also completely compostable. The recycled paperboard base and renewable plant-based window gives superior clarity and UV protection. These boxes are supplied flat and are easy to assemble.

# Wrap Box

Made entirely from renewable paperboard and plant-based PLA, these wrap packs have a small carbon footprint and can be composted in under 16 weeks when sent to commercial composting centers. As such, these packs give you a great green alternative to standard plastic packaging, helping you take a step towards a sustainable service delivery.

## French Fries boxes

These boxes are made from high quality food-grade paper, lined with environment-friendly barriers, to ensure your meals are perfectly safe. French Fries Packaging Box looks and feels natural, and is produced from natural resources, containing zero toxins or petroleum plastics.

## Chapati Box

Made from Fsc certified paper. It's easy to hold and can be easily torn from the middle. Roll box comes pre-made, and no preparation is required to make the box. Just slide the roll inside the box and serve it to your customers.

## Window Boxes

Window Boxes give their user visibility to see things the contents through a transparent cellulose film. Eco-Friendly Window Boxes are environment friendly boxes due to their biodegradable, sustainable properties.

## Burger Boxes

---

Our burger boxes are great for dine-in or takeout, made from sustainable materials and are biodegradable, compostable, and recyclable. Our burger boxes come in a variety of sizes in order to accommodate everything from sliders to full-size burgers and are available in different print and color options.

## Hot Dog Boxes

---

Our hot dog boxes are made from sustainably sourced 100% recycled FSC™ certified paper with no lining. The uniquely designed 'lock-down' lid provides good insulation to keep the food warm for longer duration. Not just for hot dogs, you can use these for burritos and even desserts such as crêpes. You can get these hot dog boxes in both eco-friendly white and brown kraft paper.

## Noodle Boxes

---

Made from compostable, recyclable, biodegradable board, our Hot Noodle Box is perfect for hot food on the go. With the special eco-friendly grease resistant coating and sturdiness of the Kraft Brown board, this box is an ideal way to serve and present your delectable cuisine. With the adaptable design, these will suit a variety of business needs such as packaging for noodles, curries, and saucy chicken wings.

# Pizza Boxes

Pizza Boxes are manufactured from recycled paper. They are durable and have good resistance to oil and grease. Boxes are flat packed hence easy to stack. This ecofriendly option is ideal for those who want to reduce their impact on the environment. Printed with water based, vegetable ink, these boxes can be custom printed as per your choice.

# CakeBox

Made from responsibly sourced paper, the cake boxes are delivered flat but are very easy to assemble. Made from hard and water-resistant cardboard paper, these boxes are printed with eco-friendly ink. With our design possibilities, we can create a well-structured custom bakery box that's as unique as your brand!

## Paper Buckets

---

The 100 per cent plastic-free bucket is ideal for protecting and presenting product, featuring a robust, grease-resistant lining which prevents the build-up of excess oil. A glossy finish has been achieved with clay coating to enhance print vibrancy without the need for a plastic coating.

## Paper Tray

---

Kraft Paper Boat Tray is one of the commonly used food boat trays in the food business industry. It was used to serve hotdogs, fried chicken, Sandwiches, and even Spaghetti. Food Boat trays is surely a very good choice for your food business. Aside from being biodegradable, you can help as well to reduce plastic pollution in your environment.

## Clamp Box

---

This sustainable product is ideal for businesses wishing to reduce ecological impact. Plus, it features a poly-coated interior that makes-resistant. With four flaps and a tab lock on top, this microwavable container ensures that your patrons' food stays fresh and at the perfect temperature and avoids spills during transportation.

## PLA Cups

Made from plant-based materials such as cornstarch, PLA is commercially compostable. These cups are environmentally friendly and feature a high-performance plastic look and feel with no use of any petrochemicals in manufacturing process.

## PLA Cups

They use 68% less fossil fuel resources than plastic and is more sustainable. Environment friendly food grade inks are used for printing. These cups are perfect for all cold drinks including milkshakes, iced lattes, and soft drinks. These eco-friendly disposable cups are strong, flexible, and shatter-proof and come with matching PLA lids (flat or domed).

## PLA Lids

Serve your most refreshing drinks while preventing on-the-go spills with our plant based lids which come in 2 shapes - dome and flat . As durable as they are eco-friendly, these reliable lids don't easily crack or split, and your customers will appreciate your environmentally friendly approach. These lids fit securely on the rolled rim of compatible cups, creating a tight seal that reduces accidental spills and leakage when guests are on the go. Plus, the lid's straw hole is easy to push through to give customers a hassle-free experience.

# PLA Containers

Papercut Bowls and matching lids are made from PLA, which is derived from plants and are suitable for cold foods and freezer safe. Great for takeout restaurants, deli counters, and grocery stores, these bowls are compostable in a commercial composting facility where accepted. Use these disposable deli containers to organize, store, or serve your prepared foods.

Crystal clear finish makes it easy to quickly see what is inside! Suitable for use with cold foods only. Not microwavable.

# PLA Sauce Bowls

Featuring a classic clear color and convenient 4 oz. size, this souffle/portion cup makes the ideal addition to buffet lines, tasting sessions, take-out, or in-house restaurant use. Use it to serve salad dressings, condiments, sauces, jams or sample tasters!

# PLA Acai Bowls

·Completely clear these bowls, made from commercially compostable PLA bioplastic, is perfect for your deli case or refrigerator where displaying food is important for people on the go. These plant based cups are perfect for: Salads, Fruit, Deli products, Muesli, Granola, Yoghurt or any refrigerated take away food.

## Screen Printing

---

All the PLA items can be customized by printing directly on the cups. This printing involves using a woven mesh screen to support an ink-blocking stencil to receive a desired image. We use soy or water-based inks for printing.

## PLA Bottles

---

Using 100% Plant made Bottles enables companies to improve their sustainable practices and step away from using plastics which are made with finite resources such as fossil fuels and reduce their carbon footprint. Neither our bottle nor our caps contain PET. These bottles are perfect to use for juices as well as for any other drink or smoothie.

## Glass Bottles

---

Crafted of lead-free soda-lime glass, the jars contain no plastic chemicals, maintaining the purity of your healthy drinks. The eco-friendly glass is greener to the environment, and is also crack-and shatter-resistant—thereby lasting years, saving money, and further protecting the planet. The screw-on lids are lined with a thin sheet of foam, airtight-sealing the bottles. They ensure the freshness and safety of your beverages for extended periods, and never let the liquid in the jars leak. The crystal-clear glass allows the vibrant juice colors to show. The jars are ideal for storing smoothies, detox water, nut milks, and protein shakes.

# Wooden Cutlery

Premium Cutlery—100% biodegradable and compostable cutlery made from natural birchwood. The wooden cutlery set includes a knife, a fork, and a napkin. The three items are hygienically sealed in a bag. This makes them particularly suitable for canteens, food stalls and anywhere where self-service is necessary. Whether it's potato salad or a casserole: the cutlery is suitable for both hot and cold food and has been tried and tested on a wide range of dishes. The set is also biodegradable as it is bio-based and plastic-free. The fork has a wax coating for a pleasant mouth feel. The materials used are FSC certified.

# PLA Cutlery

The heavy-duty Cornstarch PLA cutlery includes a spoon, knife, a fork and a napkin together in a 100% recycled paper pouch printed with water-based inks. It is great for buffet, parties, or picnics. Preferable for cold food usage as it is not suitable to use for temperatures above 115 F. The Cornstarch Cutlery is 100% compostable and biodegradable.

## Paper Straws

---

Eco-friendly disposable straws made with 100% biodegradable environmentally friendly materials. BPA-free paper and food-safe ink doesn't bleed hence making it the ideal paper straws to pop into your cup of water or juice. Made with multiple layers of thick paper that doesn't wither, melt or get soggy in liquid for an extended period of time.

## Home Compostable Straws

---

Made from a marine degradable material, these straws are certified for home and commercial composting, they also biodegrade in landfills. Rest assured knowing there's no greenwashing here.

They provide a superior drinking experience to paper straws and are more environmentally friendly than other bioplastics like PLA (polylactic acids). They perform exactly as you'd expect a single-use plastic straw to—but without any environmental consequences.

# Sugarcane Straws Wrapped

# Coconut Straws

Our Coconut Straws will have you switch from plastic straws to something eco-safe and planet-friendly. These straws make do with all the things you hate about standard recyclable straws—the sogginess, inability to reuse, and lack of heat resistance — to give you a sustainable alternative that lasts and works just as good as plastic straws. A tropical treat to sip your favorite juices, smoothies, and freshly brewed coffees,

# Coffee Straws

These straws just like plastic straws are durable and flexible, but without the negative impact, these dark brown straws look super cool and are convenient to use. Made with natural coffee grounds, these straws contain no caffeine or taste but have the delectable aroma of freshly brewed coffee. Great for multiple uses on the same day, these ingenious straws never get soggy mid-drink like paper straws and fully biodegrade in your compost bin.

## Napkins

Our kraft compostable napkins offers tremendous functionality while promoting more sustainable living. Made from recycled paper, these are highly sustainable and can be composted within 12 weeks when under commercial composting. This gives you a great green alternative to standard virgin paper napkins.

·With a 2 ply construction, these napkins are able to remove dirt and grime from hands after eating, whilst being highly cost-efficient. Soft to the touch for comfortable and luxurious use.

## Wet Wipes

Kraft paper as sachet material gives a nice natural/ecological appearance. Sachet available in standard white or brown which can be printed all over in any color. The logo can be printed on both sides of the sachet for maximum exposure. The wet wipes are perfect to give away with your greasy burger, ribs, pizza, or seafood, so the customer can clean themselves after a good meal.

## Tissue Box

Made from 100% recycled paper with a minimum 50% post-consumer content. Our tissue boxes are printed with earth-friendly inks. PLASTIC FREE – Our tissues and packaging are all biodegradable and contain no plastic.

·Convenient flat, pop-up box great for home, office, hospitality and healthcare sectors.

Custom Print option is available.

# Sugarcane Containers

These bowls are made from eco-friendly sugarcane pulp, which is 100% biodegradable and compostable. They are free of harsh chemicals, BPA, or other toxins, and are completely decomposable, so go ahead and use them guilt-free. Our takeaway containers are tree-free, made from reclaimed and rapidly renewable sugarcane pulp – a by-product remaining after the juice has been extracted that would otherwise be burned.

## Portion Bowl

Sturdy and versatile, these sugarcane bagasse containers can handle a wide variety of hot and cold foods, including soups and curries. These bagasse food containers are grease and water-resistant, with a leak-proof and secure lid – perfect for food deliveries. Sugarcane products are microwave safe.

## Round bowl with Sugarcane Lid

Home compostable renewable pulp lids are best choice for sustainable packaging. It comes in natural look design with exceptional performance. It uses pulp that comes from fibers of plant origin.

## Compartment Containers

---

Made from 100% Sugarcane Fiber, tree free - 100% Sustainable and completely compostable material. The thick compartment serving tray plate is oil and cut resistant as well as microwave safe and freezer safe.

Compartment tray is perfect for restaurants, caterers, and sandwich shops that serve anything from hot entrees to cold salads. Easily carry your meal through a cafeteria or dining room while also taking a step toward going green with this environmentally smart option.

## Single & Two Compartment Containers

---

This sugarcane / bagasse item takes up less storage space than other disposable alternatives, and it can hold heavier foods than either paper or Styrofoam. Plus, since it requires much less energy to produce, it saves on both energy and resources.

## Sauce Bowls

---

Our sauce cups are made from a renewable resource called bagasse.

We recommend these compostable sauce cups for hot and cold sauces. Bagasse is heat, grease and moisture resistant. These cups can also be used as miniature tasting cups for hot sampling. These small sauce bowls are fully compostable.

# Hard Board Boxes

Rigid boxes give you an ideal combination of standout branding opportunities, sturdy product protection and a high sustainability profile. They come in a huge variety of styles, shapes and closure types, hence you can customize and embellish the way you want to make them look and feel special.

Hardboard boxes are sturdy boxes used for packaging a variety of products. They are made of thick paper stock or heavy paper pulp & are recyclable in nature. Mostly used in high end products like perfumes, watches, gift items. Get your boxes customized with your brand name in variety or sizes and designs.

# Magnetic Case Box

Our rigid set-up magnetic box designs are made with excellent structural integrity and high-quality materials to provide an unmatched unboxing experience. They come as non-collapsible or collapsible versions. Whether you want to go all out with full color artwork and patterns, or opt for a minimal and elegant look, the sky's the limit. Add subtle details such as foil stamping, embossing, Spot UV, and more. All magnetic rigid boxes come with a standard matte or glossy finish.

# Chocolate Boxes

We are strongly committed to protect our planet by encouraging brands to use recyclable or biodegradable packaging. Our sustainable chocolate box packaging is made by recyclable paper cardboard. Biodegradable film could be used to upgrade the printing image while keeping the box recyclable. All our chocolate boxes are food grade and BPA free certificated.

## Speciality Bags

---

Made with fibres from sustainable forests, our papers help you produce shopping bags that can be recycled and turned into new products up to seven times.

Paper shopping and boutique bags emphasize your brands' commitment to positive action, which is exactly what today's environmentally conscious shopper is looking for.

Paper carrier bags are popular among consumers and retailers. Whether for food, fashion, electronics, or decorative items – they are strong and reliable shopping companions and have convincing environmental benefits at the same time.

Die cut paper bags are easily identified as the style of paper bags with cut out handles. Available in a range of material thicknesses and can be manufactured from both luxury card and kraft paper. The top and bottom of each bag is reinforced at the top and bottom of the bag for additional strength as standard.

## Bag with Die cut Handle

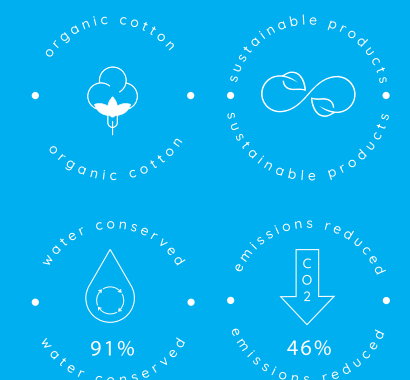

When it comes to your order, the shape of die cut handles can be attractively designed to your exact requirements. This adds character and appeal to the appearance of your design. We can advise on finishes, including embossing, debossing or spot UV to add texture and depth to truly reflect your brand.

## Cotton Tote Bag

Made with 100% organic cotton. Comfortable carry handles. Lightweight and durable. Made with love in ethically certified manufacturing facilities

# Stationery

We offer high-quality sturdy envelopes in diverse designs which can be personalized. You can add text/logo and customize it as per your personal and business requirements. Our custom letterheads allow your brand name, logo, and information to take center stage on every piece of paper that makes its way around the office or beyond it. We offer wide range of eco-friendly special papers for envelopes and letterheads to give you a cutting edge over others

# Stickers

Our paper stickers are an eco-friendly choice and the least expensive. Custom paper stickers are usually printed and supplied in sheets. Aside from being highly cost-effective, sticker papers are easy to make and have many purposes. Paper stickers are available in a matte or gloss finish.

# Greeting Cards

Greeting card a timeless expression of gratification and thoughtfulness. There are endless reasons to give or post out the personalized printed greeting card to friends and family, employees or Clients. We offer environmentally friendly printing and material to personalize your greeting cards for all occasions.

## Kraft Note Books

---

Our Earth-Conscious Notebook - From cover to cover, our notebook is made of post-consumer recycled paper. We use sustainable materials to help stop deforestation, reduce carbon footprint and preserve our planet for future generations.

## Note Books

---

With a Smooth Writing Surface - Say goodbye to ink smears while writing! We crafted our lined notebook with 80 GSM-thick recycled paper to ensure that pen inks won't bleed through and leave unnecessary marks.

Secured with Sturdy Front-and-Back Covers - Unlike a hardcover notebook or aesthetic notebook with plastic, non-recyclable cover, our spiral journal notebook has compostable, kraft paper covers

## Recycled Paper

---

Sustainable messages demand sustainable design paper. Our Recycled papers is an uncoated, paper quality matching the highest sustainability standards there is. It is certified as FSC® Recycled,,: Features 100 GSM acid-free paper in light ivory color – thicker than average notebooks & writing pads, so you can confidently use most pens, pencils, and markers without ghosting and bleed-through.

Our recycled journals are designed in a variety of beautiful and fun colors available in a selection of page styles, including Lined (for notetaking) and Dotted (for bullet journaling).

## Invitation Cards

You might find yourself overwhelmed by all the invitation paper choices available to you—and you might not know how different they can be! Then there's the printing techniques—embossed, foil-pressed, letter pressed—so many choices surrounding the card that will announce your big day

## Cotton Ribbons

Twill ribbons are made of high-quality cotton, with natural design, safe to use, not easy to break, good breathability and durability, easy to clean, and can be used repeatedly.

These soft durable ribbons are sustainable options compared to other material ribbons.

## Kraft Paper Tapes

A smart, ecological and economical way of sealing cartons and cardboard boxes, plus it has the added advantage as its capable of displaying your desired printing and/or images in as many as three different eco-friendly colored inks. Tamper resistant and reinforced with interwoven fiberglass threads for added strength and durability.

Renewable paper backing with a water-activated, high-performing corn starch adhesive.

# NFC Enabled Business Cards

Our NFC Business Card is made from real bamboo, a sustainable resource that grows at an exponential rate.

Each NFC business card has a re-programmable NFC chip inside of it, not visible from either side. Your name and/or logo will be laser-burnt into the real wood.

Customers can access information by simply tapping their smartphone to your card.

No more buying stacks of business cards. Instead, this innovative way to share your information will impress your friends and clients, and make a statement about your brand using innovative contactless technology. It fits beautifully in any wallet and can be used infinite times, no Tap Tag or app needed to scan tag

# Video Screen Cards

A video brochure that delivers a video in a custom printed, branded brochure. A video brochure is a Liquid Crystal Display (LCD) embedded into a custom printed softcover or hardcover. With a wide variety of sizes, video business cards, video brochures, video mailers, video boxes, and other display-based products, share your video message with a simple flip. No wires, no networks, no network security concern – it's a video in a brochure at your client's fingertips. All that a user needs to do is to open the marketing video brochure.

# Seed Paper

It's more important than ever to make choices for your brand that benefit the environment and this sustainable eco-packaging is the best way to do that! This zero-waste plantable packaging is made with post-consumer materials embedded with seeds so it will definitely show your eco-commitment and promote corporate sustainability.

Since the packaging can be planted instead of getting tossed, the recipient will grow something they can actually enjoy like flowers, herbs, or veggies.

# Greeting Cards

Greeting card a timeless expression of gratification and thoughtfulness. There are endless reasons to give or post out the personalized printed greeting card to friends and family, employees or Clients. We offer environmentally friendly printing and material to personalize your greeting cards for all occasions.

# Tags

Seed Paper Tags are embedded with Wildflower Seeds which has Highest Germination Rate. Seed Paper Tags are made using recycles consumer materials. Eco-Friendly environment is achieved with Recycled Paper Seed Tags. Plantable seed tags are widely used in labeling the stuffs, packaging of products such as clothing, consumer items and corporate giving. Organization's commitment towards the environment can be fulfilled when these Plantable Seed paper Tags are used.
